

COMPANY PROFILE

" Delivering Your Future Today "

ABOUT US

Twenty Logistics strived to become a leading provider of third-party logistics (3PL) services, with a specialised focus on transporting products that require strict cleanliness and meticulous care. Our mission is to deliver excellence in logistics, ensuring the safety and quality of your products from point A to point B.

With a dedicated team of logistics experts, state-of-the-art transportation technology, and a deep understanding of the transportation industry, we are committed to providing exceptional service to our valued customer across Malaysia and Singapore. Our commitment to excellent handling protocols and robust operational standards make us the preferred logistics partner for businesses that share the same values.

MISSION

Provide efficient, reliable, and sustainable logistics solutions. Through innovation, integrity, and a commitment to excellence, we aim to be the partner of choice for businesses seeking seamless and cost-effective transportation and warehousing services.

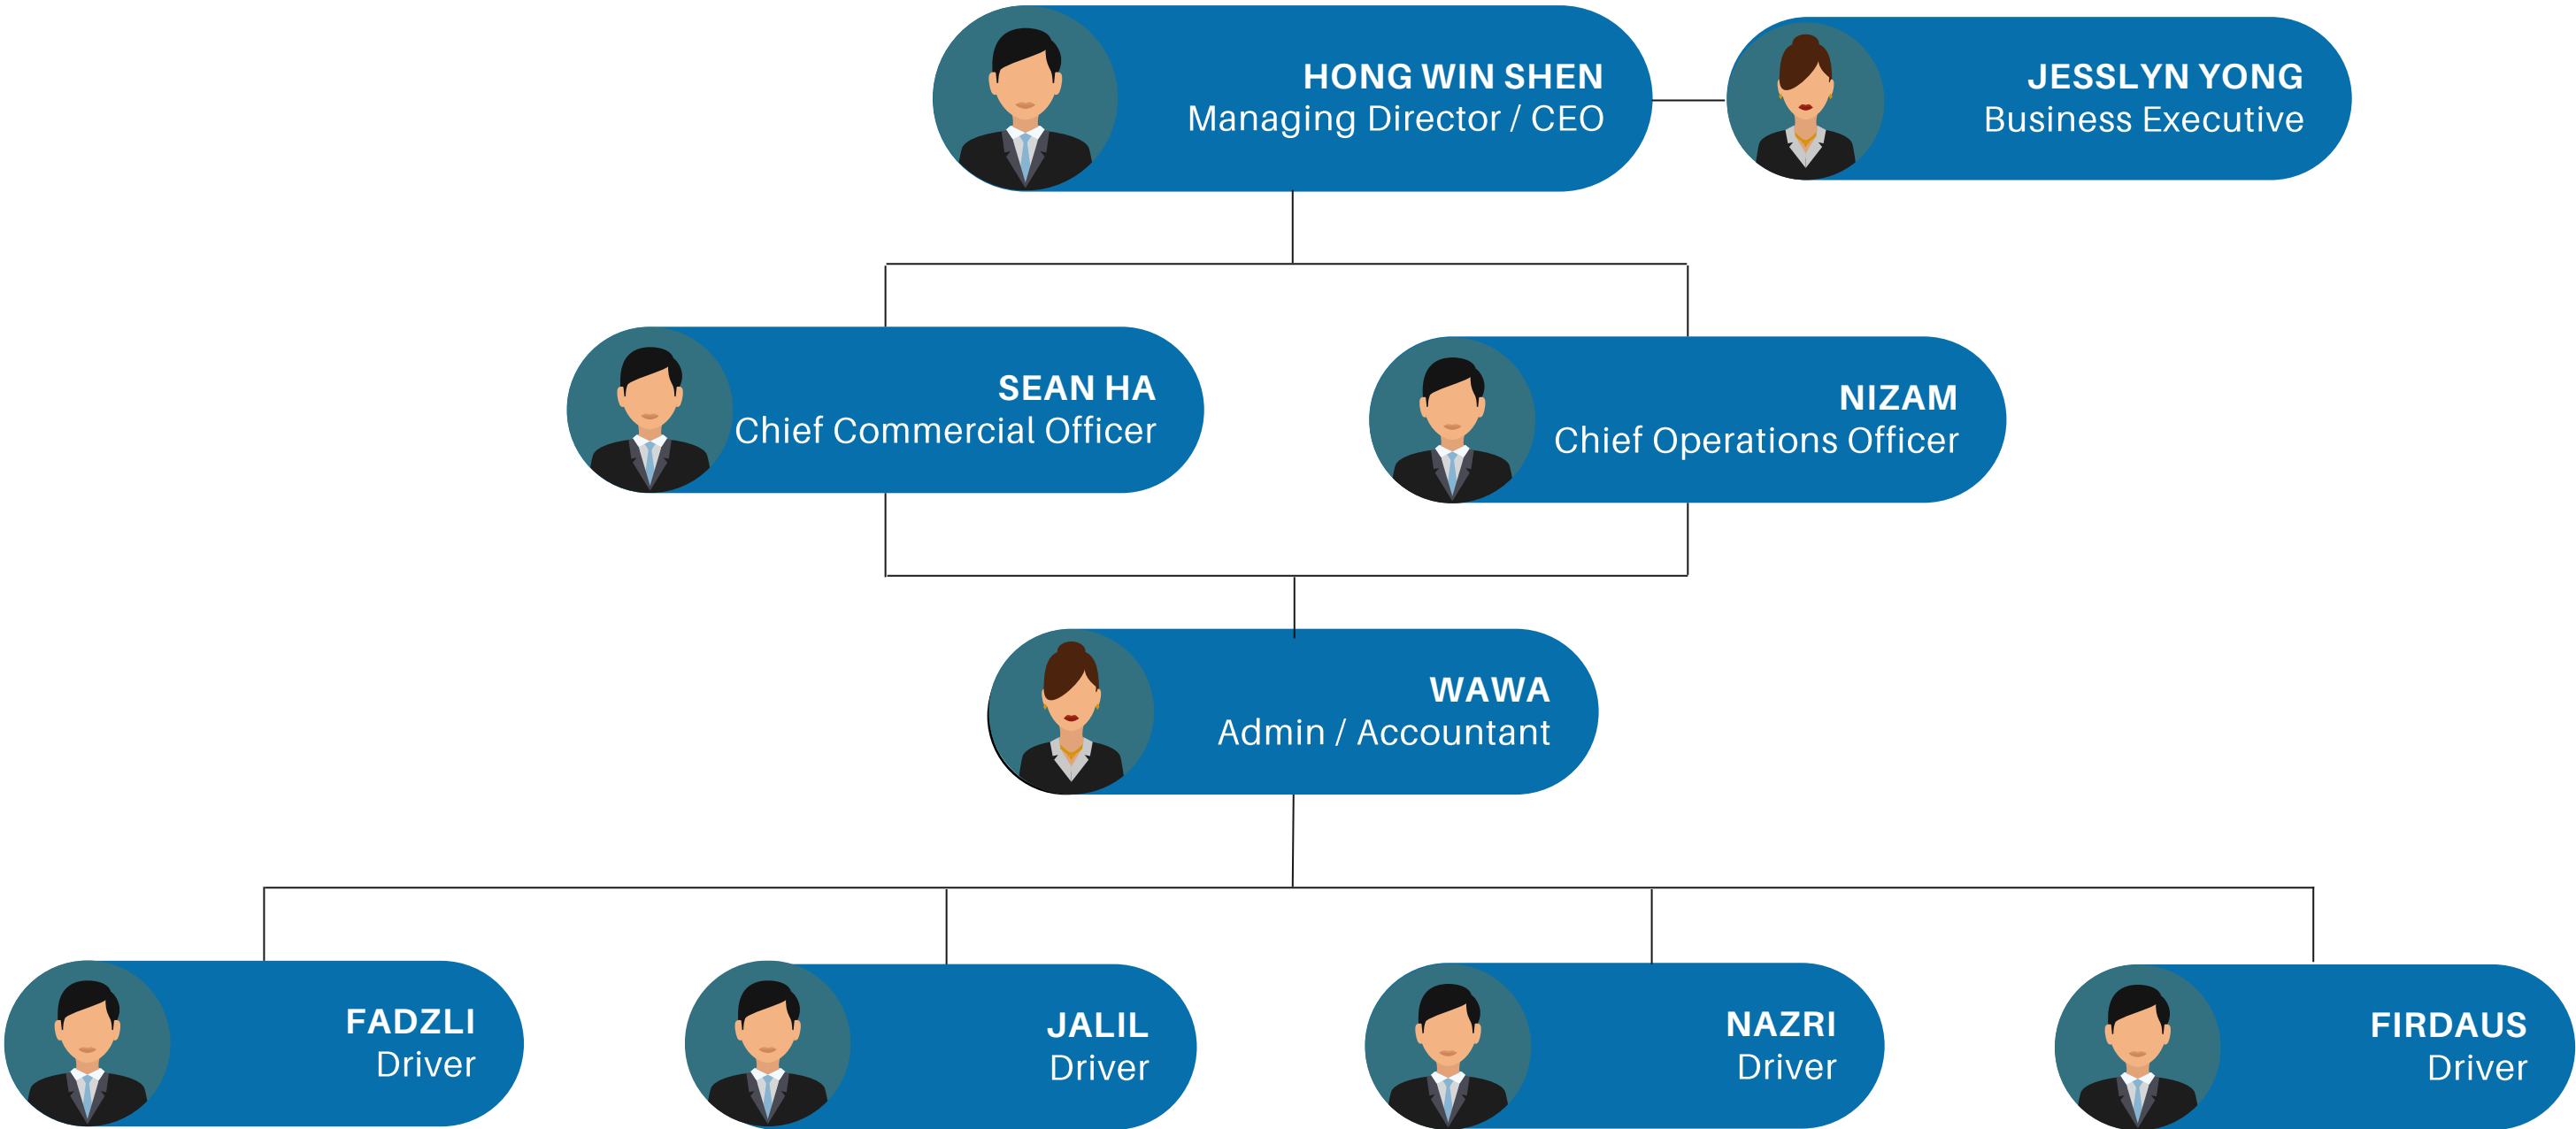

VISION

Shaping the future of supply chain management. Our commitment to reliability, efficiency, and customer satisfaction will continue to be the cornerstone of our success as we strive to connect businesses and communities, making the world a smaller and more accessible place.

OUR TEAM

Organizational Chart

CROSS BORDER TRUCKING SERVICES

Navigate cross-border logistics between **Malaysia and Singapore** with our reliable trucking services. We handle customs clearance and regulatory compliance, ensuring your products arrive on time and in good condition.

FIRST MILE & LAST MILE

From initial pickup to final delivery, our first mile and last mile services ensure a smooth, efficient supply chain. We manage the critical early and final stages, guaranteeing careful handling and prompt delivery.

We design and automate warehouses to maximize efficiency and ensure top handling standards. Our custom solutions use advanced technology to streamline storage and distribution, reducing errors and boosting productivity.

Warehouse Design & Automation

Built to Suit Warehouse

Our built-to-suit warehouse solutions are tailored to your specific needs. We work closely with you to develop facilities with specialized storage conditions and unique design features, ensuring optimal performance and safety compliance.

Our state-of-the-art warehouses provide secure, storage for various products. With efficient distribution channels, we ensure your products are stored safely and distributed accurately, maintaining their quality throughout the supply chain.
